

## MEDIA STATEMENT

### Unisa examination results and second semester registration

#### FOR IMMEDIATE RELEASE

29 July 2019

The University of South Africa (Unisa) is releasing the examination results for May/June 2019 as they are finalised and a large portion of the semester 1 exam results has already been released.

The university urges all Unisa students with outstanding exam results to check for their results and to register for semester 2 as soon as they receive all their results.

Unisa students who have received all their examination results are encouraged to register for the second semester of 2019 as soon as possible. The deadline for the second semester registrations is 10 August 2019.

Students who have not received all their examination results yet, are encouraged to register for those modules for which they have received the results. Students who cannot register for a module because of an outstanding result for a pre-requisite module, will be allowed to register for the additional module when the result becomes available. To add additional modules, students have to log on to [myUnisa](#).

For more information please visit the [Unisa registration website](#).
