

I need to decide between different career options

You may be planning your career and now find it difficult to choose between or among the different career options you have. Take some time to answer the following questions to help you reflect on needing to choose between or among different career options.

Which options do you need to choose between/ among?

What is making it challenging for you to decide between/ among these different options?

How are the options similar or different – are there relationships between/ among them?

Have you thought of a way to combine these fields that you are interested in and how you could do that?

I need to decide between different career options

If you are thinking of completing a degree, how have you explored options to incorporate the fields that you are interested in and then later specialise in one field?

How are your values, skills and interests related to the fields you are interested in?

Have you considered the need for training in these fields in terms of your community/ the larger economy?

What do you know about the fields that you are interested in?

I need to decide between different career options

Do you need more information about these fields? What type of information do you need?

Where could you get this information?

Who could you talk to?
