Unisa College of Education

2018 master’s and doctoral research focus areas

RESEARCH OPPORTUNITIES, AVAILABLE SUPERVISION CAPACITY AND SELECTION CRITERIA, ADMISSION AND REGISTRATION INFORMATION PER SCHOOL AND DEPARTMENT IN CEDU

DEPARTMENT OF ADULT BASIC EDUCATION AND YOUTH DEVELOPMENT

Research focus areas of the department (2018)

- Youth development and human rights
- community education for development
- management of adult education centres
- community colleges in adult and community education and training (ACET)
- professional development of adult educators
- professional development of adults
- adult education in correctional centres
- entrepreneurship for youth and adults
- adult vocational education and training
- open distance education/e-Learning
- gender studies within adult and community education and training (ACET)
- psychology of adult education
- environmental and health studies in adult education
- teaching adults/the adult learner
- teaching practice in adult education
- adult education and indigenous knowledge systems
- social action research in an adult education environment

Research projects that postgraduate students can participate in

Models of supervision

The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and multi-, inter- and trans-disciplinary (MIT) research. Some supervisors in the college supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the college when trying to identify a suitable supervisor.

Opportunities regarding external supervision

External supervisors will be considered if a suitable supervisor is not available in the department.

Contact details of the department

Dr Lineo Johnson: Sunnyside campus Building 10: 2-53, tel: 012 481 2740, e-mail: johnslr@unisa.ac.za
Prof. K Quan-Baffour: Sunnyside campus Building 10: 2-45, tel: 012 484 2808, e-mail: quanbkp@unisa.ac.za (CoD)
Prof. LDM Lebeloane: AJH 6-16, Tel: 012 429 443, e-mail: lebelldm@unisa.ac.za (Executive Director)

Admission requirements, documents required, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education

An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education degree with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio, or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department's capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education (DEd)

An appropriate Master of Education degree is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the department's capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters (qualification code: 98430):

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the
relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

**For a doctorate**

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

**PLEASE NOTE:** Students should clearly indicate in their research outline that they intend to focus on Adult Education in their PhD or DEd studies. It is therefore imperative that the first heading of the research outline should read *PhD in Education focusing on Adult Education or Doctor of Education focusing on Adult Education.*

**Selection procedures followed in the selection of candidates for postgraduate studies**

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School, Head of the Office of Graduate Studies and Research and the M&D Coordinator in the College for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department’s internal supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

**Possible alternative pathways**

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the departments admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements, but who possess applicable experience in research or working experience relevant the field of interest that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor's degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60% may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.
The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. **It should be clearly indicated that it is a reapplication.** The normal selection process will apply in case of reapplications.
- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.
- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

**Application procedures and when to apply**

The Department of Adult Basic Education and Youth Development will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support, College of Graduate Studies for bulk applications and registrations.

Students should:

- apply for a student number, following the steps outlined in [http://www.unisa.ac.za/Default.asp?Cmd=ViewContent&ContentID=26708](http://www.unisa.ac.za/Default.asp?Cmd=ViewContent&ContentID=26708)
- apply for a space in one of the departmental focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF INCLUSIVE EDUCATION

Research focus areas of the department (2018)

- Inclusivity, Social Justice and Human Rights in Education
- Theoretical frameworks/perspectives on Inclusive Education
- Disabilities issues in Education
- Science, Mathematics and Technology in Inclusive Education
- Care and support in Inclusive Education
- Gender-based Violence and Gender Equity in Education
- Curriculum and pedagogical issues in Inclusive Education
- Teacher Education for Inclusion

Admission requirements, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education

A bachelor of education honours degree in Inclusive Education, Special Education or Learning Support, Remedial Education, Disability Studies or an appropriate postgraduate diploma, or a 480 credit bachelor of education degree in Inclusive Education with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education (DEd)

A master of Education degree in Inclusive Education/Special Education/Disability Studies/Remedial Education or a module in Inclusive Education/ Special Education/Disability Studies/Remedial Education at master’s level. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or portfolio of evidence – refer to ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the Department's capacity to provide expert supervision and the requisite qualification.

Supporting documentation to be submitted with application

For masters [qualification code 98444 (for course work); 98443 (for full research)]

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students should clearly indicate in their research outline that they intend to focus on Inclusive Education in their PhD or DEd studies. It is therefore imperative that the first heading of the research outline should read: *PhD in Education, focusing on Inclusive Education* or *DEd focusing on Inclusive Education*.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School, the Head of the Office of Graduate Studies and Research and the M&D
Coordinator for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): Student’s academic record and experience in research (30%); understanding of research methods as evident from the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

If deemed necessary, the department may request an interview with the applicant.

Only a limited number of students per year can be accommodated in the MEd in Inclusive Education (course work) – qualification code: 98444. Students who are not admitted into the MEd in Inclusive Education (course work) may be considered for the full research MEd in Inclusive Education if a supervisor is available. The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the department’s admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.
- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.
- Applicants who do not meet the minimum requirement of 60%, may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.
- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.
- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

Application procedures and when to apply

The Department of Inclusive Education will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support for bulk applications and registrations.

Students should:
apply for a student number, following the steps outlined in http://www.unisa.ac.za/Default.asp?Cmd=ViewContent&ContentID=26708

apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF PSYCHOLOGY OF EDUCATION

Research focus areas of the department (2018)

- Success in schools
- Talent development
- Mental health in schools
- Adolescent development and learning
- Academic achievement of adolescents
- Personality and social development of adolescents
- Spiritual intelligence
- Language development (ESL/EFL)
- Learning theories
- Multiple intelligences
- HIV/AIDS and care-giver support
- Gender issues
- Life skills and life orientation
- Adaptive sport
- Discipline and punishment in schools
- Perceptions
- Cross-cultural psychology
- Bullying and positive parenting
- Child and adolescent psychology
- Cultural customs and indigenous knowledge
- Identity development
- Learner support in ODL
- Environmental education (care for the environment)
- Mathematics education (emotional barriers)
- Special needs education/inclusive education – learning disabilities/difficulties
- Psychometrics
- Career guidance
- Study assistance/methods
- Learners with physical impairments
- Autism
- Positive psychology, specifically asset-based approach
- Barriers to learning and inclusion
- Individual therapy
- Trauma
- Counselling in childhood and adolescence
- Early attachment and parenting
- Expressive and movement group therapy
- Psychoeducational health counselling
- Cross-cultural counselling
- Assessment and intervention
- Psychological, educational and dynamic assessment

teachers and learners to enable them to cope with the daily challenges of teaching and learning in order for successful schooling to occur and for teachers and students to realise their academic potential. Examples of current studies under supervision is the influence of cultural intelligence on teachers job satisfaction, promotion of mental health in a multicultural school context, mental health of teachers in an ongoing inclusive education setting.

ADHD

There seem to be a gap in SA literature and a need for a programme to assist with the identification of ADHD and this research project will not only focus on the professional development but include other stakeholders such as parents so that there can be a unison approach to assisting learners with ADHD. The project at current will be a scientific contribution of the prevalence of ADHD in SA and develop contextually relevant programmes for ADHD to assist with early detection, intervention and positive contribution to parental involvement and education system in general.

Dr RJ Tabane 1 1

Adversities and support in education

The extent of risk factors that impact on learners in schools and students in higher education institutions in South Africa is vast and varied. Support and intervention in different formats and on different levels is mandatory for well-being in education.

This research focus area considers the adversities (risks) and the support (resilience) in schools. The intention is to invite postgraduate students to conduct research within this particular niche area and thereby consolidate a deep knowledge base in this significant field.

Possible topics for explorations under this research ambit are:
1) Psycho-social and emotional effects of HIV and AIDS (teachers and learners);
2) Poverty;
3) Violence;
4) Xenophobia;
5) Learner and teacher well-being in education;
6) Emotional enhancement;
7) Support of school environments

Models of supervision

The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and multi-, inter- and trans-disciplinary (MIT) research. Some supervisors in the college supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the college when trying to identify a suitable supervisor.

Opportunities regarding external supervision

External supervisors will be considered if a suitable supervisor is not available in the department.

Contact details of the department

Prof HE Roets: Working from home, tel: 083 302 0590, e-mail: roetshe@unisa.ac.za
Prof E Venter: AJH 06-47, tel: 012 429 4751, e-mail: ventee1@unisa.ac.za
Prof N Naidu: AJH 06-61, tel: 012 429 4755 e-mail: naidun@unisa.ac.za (CoD)

Admission requirements, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education

An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education degree with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio, or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Education (DEd)

An appropriate master of Education degree preferably related to the field of study is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Doctor of Philosophy (PhD) in Psychology

An appropriate master of Education degree preferably related to the field of study is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters (qualification code – 98407):

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the
relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students planning to focus in their Doctor of Education or PhD in Psychology on Educational Psychology/Psychology of Education should clearly indicate this in their research outline. It is therefore imperative that the first heading of the research outline should read: Doctor of Education, focusing on Psychology of Education, OR PhD in Psychology, focusing on Educational Psychology.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered. Incomplete or late applications will not be considered.

The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided of unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the department’s admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor's degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60%, may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.
The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.
- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.
- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

**Application procedures and when to apply**

The Department of Psychology of Education will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support for bulk applications and registrations.

Students should:

- apply for a student number, following the steps outlined in [http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission](http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission)

- apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed they may register for the research proposal module.
DEPARTMENT OF EDUCATION LEADERSHIP AND MANAGEMENT

Research focus areas of the department (2018)

- school governance and administration
- education policy and law
- management of politics in education
- education and democracy
- continuous professional development
- quality assurance
- participative management
- managing diversity
- personnel training and development
- indigenous knowledge systems
- gender and leadership/female leadership
- instructional leadership and school governance
- educational inequality/reform
- the South African education system
- school and teacher effectiveness
- school improvement
- open distance learning/e-Learning
- teamwork and self-management
- stress/conflict management
- technology and learner support management
- management of early childhood education centres
- management of adult education centres
- transformational leadership
- rural educational leadership

An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education degree with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Master of Education (coursework) (qualification code: 98420)

An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have had adequate exposure to appropriate research methods and methodologies as part of their previous qualifications. Students must submit proof/evidence (an official letter signed by the principal of the school) that they are employed on a management level (at least a chair/head of department at a school) or have six years’ teaching experience. The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education

An appropriate master of Education degree preferably related to the field of study is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For course work masters:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students must submit proof/evidence (an official letter signed by the principal of the school) that they are employed on a management level (at least a chair/head of department at a school) or have six years’ teaching experience.

Students should submit a short research outline of 600–750 words which outlines the intended research area, research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For full research masters:

Students should submit a short research outline of 600–750 words which outlines the intended research area, research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the
relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students should clearly indicate in their research outline that they intend to focus on Education Management in their PhD studies. It is therefore imperative that the first heading of the research outline should read PhD in Education focusing on Education Management or Doctor of Education focusing on Education Management.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criterion is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

A limited number of students can be accommodated per year in the MEd in Educational Leadership and Management (course work), qualification code: 98420. Students who do not qualify for the course work Master’s, will be considered for the full research Master’s in Education Management if a supervisor is available.

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the departments admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60% may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of
interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article and a research outline outlining the intended research area, problem statement and a working title. A list of five articles and two books that have been consulted to compile the research outline should be provided.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.
- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.
- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

**Application procedures and when to apply**

The Department of Educational Leadership and Management will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support for bulk applications and registrations.

Students should:

- apply for a student number, following the steps outlined in [http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission](http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission)

- apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF EDUCATIONAL FOUNDATIONS

Research focus areas of the department (2018)

- **History of Education**
  - History of South African education since 1948
  - Oral history research method
  - Missionary education
  - Visual data analysis (physical/social artefacts)
  - Dutch/British colonial education (history of)
  - Concentration camp education (history of)

- **Philosophy of Education**
  - African philosophy
  - African philosophy and education
  - Ubuntu in education
  - Cultural diversity
  - Educational philosophies and schooling
  - Philosophy for children (P4C) and critical thinking
  - Indigenous knowledge systems and epistemologies
  - Metaphors in education
  - Teacher accountability
  - Critical thinking
  - ICT in education/educational media
  - ODL
  - Ethics
  - Postcoloniality
  - Emancipation

- **Socio-education**
  - Family as socialisation agent
  - Family dynamics, social structure and functioning
  - Domestic violence (elder abuse, sibling abuse, child abuse)
  - Gender-based violence
  - School as socialisation agent
  - School group dynamics
  - Social values
  - Social justice
  - Problematic societal phenomena: alcohol and drug abuse, juvenile delinquency, sexual licentiousness, HIV/AIDS, youth suicide

- **Comparative Education**
  - Comparison of education systems, curricula and teaching
  - Policy studies
  - Critical issues in education

socio-historical milieu before and during post-apartheid. Research support and opportunities are available for postgraduate students for a period of three years to produce agreed upon research outputs. The project makes allowance to support four Masters students. A strongly motivated doctoral proposal will be considered.

Archaeology of Ubuntu

This is a study of two and half years with a budget of R2.2 million that will deploy ten researchers from CEDU of which 4 will be postgraduate students to six provinces in South Africa and four Southern African countries (Botswana, Lesotho, Swaziland and Zimbabwe) to conduct oral-historical conversations (interviews) with community elders on ways in which ubuntu can serve as a moral theory, a public policy and a notion of communal justice.

**Models of supervision**

The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and multi-, inter- and trans-disciplinary (MIT) research. Some supervisors in the college supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the college when trying to identify a suitable supervisor.

**Opportunities regarding external supervision**

External supervisors will be considered if a suitable supervisor is not available in the department.

**Contact details of the department**

Dr M Luvalo: AJH 6-78, Tel: 012 429 2541, e-mail: luvallm@unisa.ac.za
Admission requirements, documents required, selection criteria and selection information relevant for prospective master’s and doctoral students

Master of Education

An appropriate Bachelor of Education Honours degree, or a postgraduate diploma, or a 480 credit Bachelor of Education degree with a minimum of 96 credits at NQF level 8 is required. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio of evidence or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education

An appropriate Master of Education degree preferably related to the field of study is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters:

All relevant documentation as specified by the Department of Master’s and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department of Master’s and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research area, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor in his/her research outline.

PLEASE NOTE: Students need to clearly indicate in their research outline whether they would like to focus in their PhD or DEd studies on History of Education, Comparative Education, Socio Education or Philosophy of Education. It is therefore imperative that the first heading of the research outline should indicate the focus area, e.g. PhD in Education (focusing on History of Education) or Doctor of Education focusing on Socio Education.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Incomplete applications will not be considered.
The department’s internal supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criterion is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicants whose degrees do not clearly correspond to the department’s admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60%, may apply for alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.

- Students who were unsuccessful because of an inadequate research outline, may revise their research outline and may reapply in subsequent years.

- A student whose application was unsuccessful because of inadequate academic writing skills, may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

The Department of Education Foundations will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the College of Graduate Studies for bulk applications and registrations.

Application procedures and when to apply

Students should:

- apply for a student number – following the steps outlined in http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission

- apply for a space in one of the focus areas using the online application process
Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF CURRICULUM AND INSTRUCTIONAL STUDIES

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education

An appropriate bachelor of education honours degree, or a postgraduate diploma, or a 480 credit bachelor of education degree with a minimum of 96 credits at NGF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education (DEd)

An appropriate master of Education degree preferably related to the field of study is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submit a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students should clearly indicate in their research outline that they intend to focus in their PhD or DEd studies on Curriculum Studies or Open Distance Learning. It is therefore imperative that the focus area is indicated in the first heading of the research outline, e.g. PhD in Education, focusing on Open Distance Learning or DEd in Education focusing on Curriculum Studies.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.
The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the departments admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60% may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article and a research outline outlining the intended research area, problem statement and a working title. A list of five articles and two books that have been consulted to compile the research outline should be provided.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.

- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.

- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

Application procedures and when to apply

The Department of Curriculum and Instructional Studies will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support for bulk applications and registrations.

Students should:

- apply for a student number, following the steps outlined in

http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission

- apply for a space in one of the focus areas using the online application process.
Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF EARLY CHILDHOOD EDUCATION

Research focus areas of the department (2018)

- Teacher education in early childhood education
- Policy development in early childhood education
- Practice in early childhood care and education
- Language development in the foundation phase
- The influence of culture on language development in the foundation phase
- The language policy and its implementation in early childhood education
- Teaching a first additional language in early childhood education
- Training foundation phase teachers
- Mathematics teaching in early childhood education
- Management in early childhood education
- Life skills teaching in early childhood education
- Inclusive education in the foundation phase
- Health education in the foundation phase
- Movement and physical development in the foundation phase
- Music in the foundation phase
- The foundation phase curriculum
- Classroom assessment practices
- Teaching practice in the foundation phase

IMPORTANT INFORMATION:

Unisa does not offer an MEd degree in Early Childhood Education. Students who would like to specialise in any aspect of Early Childhood Education when doing a Master of Education should enrol for one of the following degrees:

- MEd in Curriculum Studies (The Early Childhood Education Curriculum)
- MEd in Education Management (Management in Early Childhood Education)
- MEd in Inclusive Education (Learners with special needs in Early Childhood Education) (take note of admission requirements for this degree)
- MEd in Socio-education (Early Childhood Education in social context)
- MEd in Psychology of Education (Development of learners in early childhood)

Students should refer to the websites of the following departments: Curriculum and Instructional Studies; Educational Leadership and Management; Inclusive Education, Educational Foundations and Psychology of Education.

Students should clearly explain in their research outline that they intend to focus on Early Childhood Education. It is therefore imperative that the first heading of the research outline should read: **MEd in Curriculum Studies, focusing on Early Childhood Education.**

|                          | • Teacher education and policy                                                |                                                                  |                                                                  |

Models of supervision
The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and multi-, inter- and trans-disciplinary (MIT) research. Some supervisors in the college supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the college when trying to identify a suitable supervisor.

Opportunities regarding external supervision
External supervisors will be considered if a suitable supervisor is not available in the department.

Contact details of the department
Prof HB Ebrahim: AJH 7-54, tel: 012 429 8747, e-mail: ebrahhb@unisa.ac.za
Prof NC Phatudi: AJH 7-61, tel: 012 429 6521, e-mail: Phatun1@unisa.ac.za (CoD)
Prof PL Mabunda: AJH 6-02, tel: 012 429 4478, email: mabunpl@unisa.ac.za (Executive Director)

Admission requirements, documents required, selection criteria and selection information relevant for prospective masters and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education
An appropriate bachelor of education honours degree, or a postgraduate diploma, or a 480 credit bachelor of education degree with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, enrolling for a research methodology module for non-degree purposes or submitting a portfolio - refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department's capacity to provide expert supervision and the requisite qualifications listed above.

PLEASE NOTE: Unisa does not offer an MEd in Early Childhood Education. Depending on their proposed topic students are advised to enrol for an MEd in one of the following areas of specialisation: Education Management, Inclusive Education, Curriculum Studies, Psychology of Education, Socio-Education, Comparative Education or Philosophy of Education. Students should clearly indicate in their research outline that they intend to focus on Early Childhood Education. The first heading of their research outline should for example be: MEd in Curriculum Studies (focusing on ECE); OR MEd in Education Management (focusing on management of ECE centres); OR MEd in Socio-Education (focusing on ECE), etc.

Doctor of Philosophy (PhD) in Education and Doctor of Education (DEd)

An appropriate Master of Education degree is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department's capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters:

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department's website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department's website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students who would like to focus on Early Childhood Education in their PhD or DEd studies should clearly indicate this in their research outline. It is therefore imperative that the first heading of the research outline should read: PhD in Education, focusing on Early Childhood Education or Doctor of Education focusing on Early Childhood Development.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department's supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department's prerogative to allocate an alternative supervisor (internal or external).
Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student's academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master's degrees, applicant's whose degrees do not clearly correspond to the department's admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master's or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master's degree on the strength of a postgraduate diploma or a 480 credit bachelor's degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60%, may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest, that may qualify them for admission. The normal selection process will apply in case of reapplications.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.

- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.

- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

Application procedures and when to apply

The Department of Early Childhood Development will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master's and Doctoral Administration Support for bulk applications and registrations.

Students should:

- apply for a student number, following the steps outlined in http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission

- apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF MATHEMATICS EDUCATION

Research focus areas of the department (2018)

- Mathematical literacy
- Mathematics curriculum development and evaluation
- Mathematical modeling and problem solving
- Assessment in Mathematics
- Basic statistical and financial mathematics education
- Spatial development
- Technology and media education
- Mathematics teacher professional development
- Mathematical pedagogical and subject matter knowledge
- Collaborative teaching and learning
- Mathematics classroom practices
- Gender in teaching and learning mathematics
- Ethno mathematics and indigenous knowledge
- Language issues in the teaching and learning of mathematics in multilingual classrooms
- Mathematical knowledge for teaching
- Error analysis and application in classroom
- Curriculum development and comparative studies
- Geometrical thinking
- Problem-centred teaching and learning
- Lesson study
- Cognitive learning
- Ethno mathematics

Models of supervision
The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and multi-, inter- and trans-disciplinary (MIT) research. Some supervisors in the college supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the college when trying to identify a suitable supervisor.
Opportunities regarding external supervision
External supervisors will be considered if a suitable supervisor is not available in the department.

Admission requirements, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education
An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education degree with a minimum of 96 credits at NQF level 8 in Mathematics Education. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education or Doctor of Education (DEd)
A Master of Education in Mathematics Education. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters:
All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 600–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

For doctorate:
All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.

Students should submit a short research outline research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students planning to focus on Mathematics Education in their PhD or DEd studies should clearly indicate this in their research outline It is therefore imperative that the first heading of the research
outline should read: PhD in Education focusing on Mathematics Education or Doctor of Education focusing on Mathematics Education.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master's degrees, applicant’s whose degrees do not clearly correspond to the department’s admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.

- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Department. If the approved outcome of the RPL process is positive, the student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.

- Applicants who do not meet the minimum requirement of 60%, may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.

- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.

- A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

Application procedures and when to apply

The Department of Adult Basic Education and Youth Development will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master’s and Doctoral Administration Support for bulk applications and registrations.
Students should:

- apply for a student number, following the steps outlined in [http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master&s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission](http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission)

- apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF SCIENCE AND TECHNOLOGY EDUCATION

Research focus areas of the department (2018)

- Physical science education
- Life science education
- Natural science education
- Geography education
- Environmental education
- Technology education
- ICT in education
- Indigenous knowledge systems
- Inquiry based instructions
- Pedagogic content knowledge
- Practical work in science
- Rural education
- Mentoring of novice science teachers
- Language and science teaching and learning
- Teacher thinking/belief/conception
- Physics and chemistry education
- IBL in the senior phase

Admission requirements, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master's and doctoral studies in the College of Education

Master of Education

- MEd (Natural Science Education): A bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education with a minimum of 96 credits at NQF level 8 in Natural Science Education. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

- MEd (Environmental Education): A bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education degree with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education or Doctor of Education (DEd)

An appropriate Master of Education in Science Education or Environmental Education is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

- apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
DEPARTMENT OF LANGUAGE EDUCATION, ARTS AND CULTURE

Research focus areas of the department (2018)

- The teaching and learning of language at primary, secondary or higher education level
- The methodologies, approaches and techniques of language teaching
- The use of textbooks in language teaching
- Teaching bilingual learners
- Teaching English (or any other language) as a home, first or second additional language and as the language of learning and teaching
- Literacy teaching, reading, writing, speaking and/or listening
- Teaching language and literature in a home/additional language classroom
- African language literature and women
- Teaching of indigenous languages
- The teaching and learning of indigenous knowledge systems
- The teaching of art and culture in the intermediate phase/senior or FET phase (which includes visual arts, music and drama)
- Language education and women
- Using ICT and educational media in language teacher training
- Language policies in schools and at tertiary level
- Assessment in language education

IMPORTANT INFORMATION

Unisa does not offer MEd qualification in Language Education, Arts and Culture. Students who would like to specialise in any aspect of Language, Arts and/or Culture Education when doing a Master of Education should enrol for one of the following degrees:

- MEd in Curriculum Studies (The Language, Arts and/or Culture Curriculum, Teaching languages)
- MEd in Inclusive Education (Learners with special needs/barriers in language learning) – take note of admission requirements for an MEd with specialisation in Inclusive Education
- MEd in Adult Education – course work (Literacy teaching in Adult Education)
- MEd in Psychology of Education (language acquisition)

Students should clearly explain in their research outline that they intend to focus on Language/Arts and/or Culture Education. It is therefore imperative that the first heading of their research outline should read: MEd in Curriculum Studies, focusing on language teaching; OR MEd in Adult Education, focusing on the teaching of a first additional language to adults, etc.

• Education, leadership and management with specific reference to consultation towards school improvement | 1 | 1 |
| Prof PM Sebate | • The teaching and learning of language and literature in the primary and secondary schools  
• Assessment and quality assurance in language teaching  
• The use of textbooks in language teaching  
• Teaching indigenous knowledge systems  
• The teaching of African languages with reference to Setswana | 2 | 2 |

Models of supervision

The individual and co-supervision models are used. Co-supervision is mostly done for mentoring purposes and Multi, Inter and Trans-disciplinary (MIT) research. Some supervisors in the College supervise across departments. Students are therefore advised to study the lecturer profiles of other departments in the College when trying to identify a suitable supervisor.
Opportunities regarding external supervision

External supervisors will be considered if a suitable supervisor is not available in the department.

Contact details of the department

Prof V Manyike: AJH 6-102, tel: 012 429 4004, e-mail: manyitv@unisa.ac.za
Prof PM Sebate: AJH 6-121, tel: 012 429 8220, e-mail: sebatpm@unisa.ac.za (CoD)
Prof PL Mabunda: AJH 6-02, tel: 012 429 4478, email: mabunpl@unisa.ac.za (Executive Director)

Admission requirements, selection criteria and selection information relevant for prospective master’s and doctoral students

Minimum admission requirements for master’s and doctoral studies in the College of Education

Master of Education

An appropriate bachelor of Education honours degree, or a postgraduate diploma, or a 480 credit bachelor of Education with a minimum of 96 credits at NQF level 8. The average mark obtained for the degree shall be 60%. All students should have completed a module in research methods and methodologies as part of their previous level 8 qualification. Students who do not meet these requirements may follow an alternative pathway (e.g. RPL, submitting a portfolio or working through a prescribed reading list – refer to POSSIBLE ALTERNATIVE PATHWAYS). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualifications listed above.

Doctor of Philosophy (PhD) in Education and Doctor of Education (DEd)

An appropriate Master of Education degree is required. The average mark obtained for the degree shall be 60%. Students who do not meet this requirement may follow an alternative pathway (e.g. RPL or submitting a portfolio – refer to POSSIBLE ALTERNATIVE PATHWAY). The application should accord with the various research focus areas/areas of specialisation of the department, the department’s capacity to provide expert supervision and the requisite qualification listed above.

Supporting documentation to be submitted with application

For masters:

All relevant documentation as specified by the Department for Master's and Doctoral Administration Support.

Students should submit a short research outline of 500–750 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of five scholarly articles and two books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

Please note: Unisa does not offer an MEd in Language, Arts and/or Culture Education. Depending on their proposed topic students are advised to enrol for a MEd in one of the following areas of specialisation: Education Management, Curriculum Studies, Psychology of Education, Socio-Education, Comparative Education or Philosophy of Education.

Students should clearly explain in their research outline that they intend to focus on Language, Arts or Culture Education. It is therefore imperative that the first heading of their research outline should indicate: MEd in Curriculum Studies (focusing on language teaching); OR MEd in Psychology of Education (focusing on development of an additional language), etc.

For doctorate:

All relevant documentation as specified by the Department for Master’s and Doctoral Administration Support.
Students should submit a short research outline of 800–900 words which outlines the intended research project, the research approach, problem statement and a working title. In addition, a list of ten scholarly articles and four books that have been consulted to compile the research outline should be provided. These sources should be predominantly recent, with the exception of (classical) theories which can only be found in old sources. The Harvard referencing method should be used. Students should provide a declaration that they have consulted the relevant department’s website prior to submitting their application and should propose the name of his/her preferred supervisor.

PLEASE NOTE: Students planning to focus on language teaching or arts and culture education in their PhD or DEd studies should clearly indicate this in their research outline. It is therefore imperative that the first heading of the research outline should read: PhD in Education, focusing on Language Education OR DEd in Education focusing on Language, Arts and Culture Education.

Selection procedures followed in the selection of candidates for postgraduate studies

All applications will be considered simultaneously by the Departmental Higher Degrees Committee, Chair of the Department, Director of the School and the Head of the Office of Graduate Studies and Research for purposes of fairness and transparency. Only candidates who meet the minimum eligibility criteria will be considered.

The department’s supervision capacity and availability of external supervisors will be the first and most important selection criterion. No applicant will be admitted without a supervisor being allocated to the student. If a student requests to be supervised by a particular supervisor, but the supervisor is not available because of his/her existing supervision load, it is the department’s prerogative to allocate an alternative supervisor (internal or external). Further selection will be done based on the following selection criteria (weight attached to each criteria is indicated between brackets as a percentage of the overall evaluation): student’s academic record and experience in research (30%); understanding of research methods as displayed in the research outline (30%); academic writing skills (30%); addressing of past inequalities by taking race, gender and disability status into consideration (10%).

The department will keep record of all applications and reasons will be provided for unsuccessful applications.

Possible alternative pathways

The following alternative pathways exist for applicants who do not meet the admission requirements:

- Applicants with degrees that have different structures from normal South African honours or master’s degrees, applicant’s whose degrees do not clearly correspond to the department’s admission requirements (e.g. no mark awarded for previous dissertations, no clear evidence of having completed a research-related module as part of the previous qualification, etc) or applicants who do not meet admission requirements but who possess applicable experience in research or working experience relevant the field of interest, that may qualify them for admission to a master’s or doctoral degree will be required to apply for recognition of prior learning (RPL). Prior academic and research activity by the applicant will be evaluated in accordance with formal Unisa RPL procedures and the outcome of the RPL process will be submitted to and approved by the Chair of the Department. If the approved outcome of the RPL process is positive, the applicant will be allowed to proceed with an application for admission, subject to all terms and conditions governing the admission process.
- Applicants who apply for a master’s degree on the strength of a postgraduate diploma or a 480 credit bachelor’s degree with a minimum of 96 credits at level 8 and who have not completed a module in research methodology will be required to obtain knowledge about research methods and methodology by working through a prescribed reading list which will be forwarded to them by the chair of the Departmental Higher Degrees Committee upon request from the student. The student will have to complete and pass a number of assignments related to research methodology. The student may reapply in subsequent years.
- Applicants who do not meet the minimum requirement of 60%, may apply for an alternative pathway by submitting a portfolio containing a motivation letter indicating reasons for wanting to do the qualification and for selecting the specific area he/she is applying for, a CV highlighting experience relevant to the field of interest and evidence of engagement with research which could include one or more of the following: a written report of a scholarly nature, a literature survey, a paper presented at a conference, a published article.

The following alternative pathways exist for applicants whose applications were unsuccessful:

- Students who have been refused admission because of limited capacity within the department or because their topic was not viable may reapply in subsequent years. It should be clearly indicated that it is a reapplication. The normal selection process will apply in case of reapplications.
- Students who were unsuccessful because of an inadequate research outline may revise their research outline and may reapply in subsequent years.
• A student whose application was unsuccessful because of inadequate academic writing skills may reapply in subsequent years provided that he/she can provide proof of measures put in place to improve his/her academic writing skills (e.g. enrolled for and passed a course in academic writing skills).

Application procedures and when to apply

The Department of Language Education, Arts and Culture will not make use of differentiated registration dates. Applications for admission and registration will take place in accordance with the dates set by the Department for Master's and Doctoral Administration Support for bulk applications and registrations.

Students should:

• apply for a student number, following the steps outlined in
  http://www.unisa.ac.za/sites/corporate/default/Apply-for-admission/Master%27s-&-doctoral-degrees/Apply-for-a-student-number-and-apply-for-admission

• apply for a space in one of the focus areas using the online application process

Once acceptance in the research focus area and the allocation of a supervisor has been confirmed, they may register for the research proposal module.
