Working Group Session

You are cordially invited to the 3rd 2026 series of CGS-facilitated Catalytic Niche Area Working Group meetings for Health Studies/ Medicine. The theme for series 3 is “Cultivating Emerging Scholarly Voices within Catalytic Niche Areas”. In this series, we aim to strengthen the integration of emerging scholars, particularly M&D students, postdoctoral fellows and early-career academics, into catalytic niche area research ecosystems.

GUEST PRESENTER:

Dr Perside Ndandu

Presentation Title:

Making Blood Count: From Historical Blood Records to Contemporary Public Health Surveillance

Thursday, 3 September 2026
14:00 – 15:00
