1. Marine Studies, 2. Aviation and Aeronautical Studies, 3. Automotive, 4. Energy, **5. Space Study and Square Kilometer Array**, 6. Fourth Industrial Revolution and Digitalisation, 7. Natural Sciences (Biotechnological studies), 8. Health Studies/Medicine, 9. Feminist, Womanist, Bosadi Theorisations, 10. Student Support and Co-Curricular Activities.

Working Group Session

You are cordially invited to the 3rd 2026 series of CGS-facilitated Catalytic Niche Area Working Group meetings for Space Study and Square Kilometer Array. The theme for series 3 is “Cultivating Emerging Scholarly Voices within Catalytic Niche Areas”. In this series, we aim to strengthen the integration of emerging scholars, particularly M&D students, postdoctoral fellows and early-career academics, into catalytic niche area research ecosystems.

GUEST PRESENTER:

Dr Eliab Tokelo Malefahlo

Presentation Title:

Beyond What Our Eyes Can See: Unlocking the Universe with Radio Astronomy

Wednesday, 19 August 2026
14:00 – 15:00
