

10th Annual Conference on Mathematics, Science and Technology Education

FIRST CALL FOR PAPERS

Kruger National Park, South Africa

20-24 October 2019

PLENARY SPEAKERS

Professor Samson Madera Nashon
University of British Columbia (UBC)

Dr. Punya Mishra
Arizona State University

Professor Rob O'Donoghue
Rhodes University

Dr James Keevy
JET Education Services

The aim of this conference is to attract the best of MSTE researchers from across the world. This event will bring together academic and research experts to interact on the problems facing the teaching and learning of mathematics, science, and technology at all levels. The conference will offer: plenary sessions with renowned scholars; technical sessions (featuring papers on Mathematics Ed, Science Ed, Chemistry Ed, Physics Ed, Life Science Ed, ICT Ed, Engineering ED, and Teaching & learning MST through ODeL) and a number of capacity development workshops. Papers will be peer-reviewed for the conference proceedings, which since the inception of the Conference have been accredited by the Department of Education.
