CONGRATULATORY MESSAGE FROM THE PRINCIPAL AND VICE CHANCELLOR

Prof. Puleng LenkaBula

Graduations are the hallmark and pinnacle of trajectories that students follow in the life-long pursuit of wisdom and knowledge in the various degrees they undertake at UNISA. Universities showcase students' successes and completion of the educational and research processes through graduation ceremonies. They attest to the investments in talents, expertise, research and knowledge resources of the various academics, professional and administrative staff who – working in concert – contribute to comprehensive sets of academic outcomes that underscore the quality-driven completion of studies.

I wish to extend my heartfelt **CONGRATULATIONS** to you for completing your undergraduate and postgraduate studies at the University of South Africa (UNISA) often referred to in the public as “The University of the Land”. Your success is indicative of your initiative, persistence, and resilience which, through your graduateness, will contribute to national priorities in turns.

Our South African National Development Plan (2030) underscores the imperative for highly trained human personnel for the knowledge economy and global competitiveness. Equally, the African Union Agenda 2063 makes a case for scientifically resourced knowledge futures for the advancement of the African continent.

Unisa has armed you all with the requisite knowledge that will hopefully enable you to thrive anywhere in the world, with good prospects; you will not only seek employment, but even more importantly in our day, will surely provide employment to others and, by the same token, anchor your participation in socio-political, economic, and other contexts. As a graduate of UNISA, you are encouraged to transfer your knowledge to transform life to better yourself, family, community, society, with a local and global outlook.

We urge you to be attentive to the shifts and/or changes in the global knowledge, scientific, technological systems, economic, socio-political, and ecological environments. As you take up new opportunities remember that *“the sky is no longer the limit, but the frontier of research”*. As such, life invites you to expand your horizons, explore the multiplicities of opportunities that local, continental, and global contexts offer.

Unisa is a *Comprehensive, Open Distance and e-Learning University (CODEL)* which mediates distance in teaching and learning, research and innovation and engaged scholarship via multi-modal pedagogies and digital systems. As you complete your degree, be assured that Unisa is still poised at “shaping futures” and committed to excellence. The University has in 2021 embarked on research-led explorations and innovations which will see us institutionalising key critical knowledge areas that are aligned to the knowledge economy and simultaneously strengthening participation in the national and global innovation systems. Key to these, are the establishment of catalytic niche areas, *inter alia*, include: (1) Aviation and Aeronautics; (2) Automotive Industrial Research and Innovations; (3) Oceanography and Marine Studies; (4) Health Sciences (and medicine) (5) Industrialisation and Knowledge Base and Digitalisation; (6) Energy and Sustainability (7) Square Kilometre Array (SKA) (8) Natural Sciences (Biotechnological/Nanotechnologies) (9) Feminist Womanist and Bosadi Theorization (10) Student Support and Co-curricular Professionalisation. These innovative ventures will succeed through the support of stakeholders like yourselves in your new position as the Unisa Alumni.

Please note that Unisa is intensifying efforts to “secure Third and Fourth Stream Income Revenue.” Resources/Financial sustainability has become a very real need for Universities, including for UNISA. Many students are reliant on tuition fees support from the National Financial Aid System. This implies that we should all, in the spirit of ‘Letsema’, work toward supporting the efforts for resources mobilisation. Universities are by their very nature social institutions with missional mandates to shape students as intellectual and global citizens who contribute to the local and global cycles of life, in the social, political, economic, ecological, religious, social, and other spheres of life through teaching and learning, research and innovations, engaged scholarship and social impact.

Given our history of inequities in the South African past, the harsh reality that the gaps between the haves and have-nots make South Africa to remain one among the top unequal countries in the world. The journey through the thick forest of studying, writing assignments, writing examinations (including virtual ones) and researching among others, has not been a bed of roses. For many of you and including your pillars of support (family and friends among others), lots of sacrifices had to be made from unexpected quarters. The sudden encroachment upon global economies, human bodies and even human lives by the COVID-19 pandemic, has only aggravated the situation in peculiar but palpable ways; it has forced a limping animal to climb a mountain for survival (*ya re e bona e hlotša, ya e nametša thaba!*) Amidst all these, you still managed to make it, thus sending a message to prospective students that hard work rewards handsomely.

Ours is a university with a history of 148 years of offering education from a distance; in that way Unisa has reached out even as it continues to do so today, even to those who could not/and still would not be able to access this precious treasure, that is, education. Universities are indeed sites of knowledge production, sites of innovation and ideation, to enable those who dare to acquire education beyond empowering and enriching themselves.

Amina Mama is thus right: “ordinary people on the poorest continent embrace higher education (HE) as a key means to upward mobility, a route out of the debilitating deprivations of poverty and into the mainstream of national or even international life.” Persuaded by the spirit of care, empathy, and compassion, the empowered (also read as: the graduated and the certificated) also have a responsibility to go out there and contribute positively to the development of our communities, both locally and abroad. In that way, they become the kind of graduates whom society yearns for, the kind who will change society for the better.

I wish you success in your journey ahead as you hoist the UNISA flag high as our proud alumni.

NATIONAL ANTHEM

Nkosi sikelel' iAfrika
Maluphakanyisw' uphondo lwayo
Yizwa imithandazo yethu
Nkosi sikelela,
Thina lusapho lwayo

Morena boloka setjhaba sa heso,
O fedise dintwa le matshwenyeho.
O se boloke ... o se boloke,
Setjhaba sa heso,
setjhaba sa South Africa, South Africa.

Uit die blou van onse hemel,
Uit die diepte van ons see;
Oor ons ewige gebergtes
Waar die kranse antwoord gee.

Sounds the call to come together,
and united we shall stand.
Let us live and strive for freedom,
in South Africa our land.
