

# TEDx University of South Africa

x = independently  
organized TED event

TED is a global foundation devoted to Ideas Worth Spreading. It started out in 1984 as a conference bringing together people from three worlds: Technology, Entertainment, Design. Since then, its scope has become ever broader. With its two annual conferences, video website TED.com, initiatives and community projects, TED is now a platform and a global movement focused on meaningful change through the power of ideas.

TEDx was created in the spirit of TED's mission, Ideas Worth Spreading. The program is designed to give communities the opportunity to stimulate dialogue through TED-like experiences at the local level.

TEDx Talks are open source, local and community-driven events that inspire innovation, thought leadership and visionary insight. A TEDx license is free to obtain.

TEDx organizers do not host events for political reasons, monetary reward nor personal gain. They do so because they truly believe in the power that ideas have to change the world

As Africa's leading open distance learning institution, UNISA inspires learners to create meaningful futures on their own terms. We are the African University shaping futures in the service of humanity and invite to participate at TEDxUniversityofSouthAfrica Event themed: **We Define Tomorrow**

At TEDxUniversityofSouthAfrica, we search all year-round for speakers among students & alumni who will inform and inspire, surprise and delight. Our presenters run some of the world's most admired companies and design its best-loved products; they invent world-changing devices and create ground-breaking media. TEDxUniversityofSouthAfrica also seeks out emerging artists, scientists and thinkers, introducing them to the TED community well before they hit the mainstream.

Our team is looking for authentic stories to tell, in African languages, subject domains or new discoveries. Do not be shy. Stand bold and firm. Let the world listen to your voice.
