

**To** : All UNISA Students  
**From** : ICT Portfolio  
**Subject** : Invitation to Register: Huawei HCIA-5G Digital Academy Programme (No Cost)  
**Date** : 18 May 2026

---

Dear Student

UNISA, through the Digital Academy platform, invites you to register for the **Huawei HCIA-5G Certification Programme**, commencing on **01 June 2026**.

This initiative forms part of the University's broader commitment to strengthening student employability and preparing graduates for participation in a digitally enabled economy. The programme introduces foundational concepts in next-generation connectivity, including 5G network architecture, emerging technologies, and real-world applications that are shaping industries globally.

**Important to note:**

- **There is no financial cost** associated with this training opportunity
- The programme is offered within a **Train-the-Trainer framework**, creating further opportunities for capable participants to support knowledge transfer within the institution
- Participation contributes towards building relevant, industry-aligned digital skills
- The training is online, and participation requires a device with a stable internet connection

Through the Digital Academy, UNISA continues to take deliberate steps to bridge the gap between academic learning and industry demands, while addressing the challenge of graduate unemployment through structured digital skills development.

**Registration details**

As outlined in the **poster below**, the programme is open to students from all disciplines, including those with no prior ICT experience.

REGISTER BY THE  
29 MAY 2026

## STEP INTO THE FUTURE WITH HCIA-5G CERTIFICATION

### CLASSES ARE FROM 1<sup>st</sup> of JUNE - 12<sup>th</sup> of JUNE 2026 @ 18H30

Are you ready to build your career in the world of next-generation connectivity? I am looking for students, post-graduates, and tech enthusiasts, to sign up for HCIA-5G (Huawei Certified Associate - 5G) Certification by Huawei.

### WHY HCIA-5G

This entry-level certification equips you with foundation knowledge of 5G networks and prepares you for opportunities in the fast-growing telecom and ICT space

### WHAT YOU'LL LEARN?

- 5G Network Architecture (Core, RAN, transport network)
- Key technologies like Massive MIMO, Beamforming & network slicing
- 5G spectrum and global standards
- Real-world deployment scenarios (smart cities, IoT, autonomous driving)
- Basic operation and maintenance (O&M and concepts)

### CONTACT

**Puseletso Murare**

**NO ICT EXPERIENCE NEEDED**

Define tomorrow.

UNISA  
university of south africa

- **Start Date:** 01 June 2026
- **Registration Deadline:** 29 May 2026 (Close of Business)
- **Register using the link:** [HCIA-5G certification](#)
- Alternatively, scan the **QR code** provided on the poster below to register

Limited spaces are available, and early registration is strongly encouraged.

Students are encouraged to take advantage of this opportunity to strengthen their digital capability and position themselves for emerging opportunities within the ICT and broader digital economy.

Thank

you.
