Time: 09h00-13h00

Mode: Ms Teams Live Event

Enquiries: kgomobb@unisa.ac.za

The NC PSET Forum was established in 2019 to discuss issues such as skills and economic development in the Fourth Industrial Revolution era. The debut seminar held in 2019 discussed the topic *“Is the Post School Education and Training Sector producing graduates with the required knowledge, skills, competence, attitude for the Fourth Industrial Revolution (4IR) workplace/industry?”*

The 2020 webinar will build on the findings of the debut seminar and further discuss Province building in a time of 4IR and an emergency such as the COVID-19. This will give presenters and attendees an opportunity to reflect on how COVID-19 affects the development of communities as well as the producers and consumers of skills. These discussions will be held against the backdrop of the Fourth Industrial Revolution (4IR).
